

INSPECTION CHECKLIST

- ✓ Have all PPE on correctly before your shift starts.
- ✓ See the on-duty supervisor for your required job briefing.
- ✓ Go to the designated area that PEIR Inspection equipment is located.
- ✓ Log into PEIR using the equipment number for the name and the password.
- ✓ After you are logged on take a picture of your E-Rail safe badge.
- ✓ Start the vehicle.
- ✓ Proceed with your standard pre-shift vehicle inspection, looking for body damage, leaking fluids, garbage in the cab, etc....
- ✓ As you are doing your inspection you will take 5 standard pictures (F, LS, RS, R, Interior showing the indicator lights & Laptop) Left Side 1st making sure the equipment ID number is clear.
- ✓ If you deem the vehicle clean (no garbage from previous operator) and in good working order turn the PEIR Inspection device back to its station & start the duties assigned to you.
- ✓ If your vehicle has damage, garbage in the cab or you deem it not in good working order you will need to fill out a B/O equipment form. When complete contact the on-duty supervisor he will advise how to proceed.

This checklist was created by a PEIR Mobile App customer. It's so fast and simple to train your team with this checklist that we wanted to share it with you.
