Usage Examples:

I purchase a block of 7,000 events, and pay \$2,590 on January 1. All 7,000 events can be used prior to December 31 of that year. If at the end of the year, I have only used 6,500 events, I would forfeit 500 events after December 31.

On the other hand, if I buy a block of 7,000 events on January 1 and use all 7,000 events by July 1, I can purchase a new block of 7,000 events, and use those events up to and including June 30th of the next year (12 Months)
